Compliance: This policy complies with all relevant regulations and other legislation as detailed in the Compliance with Regulations & Legislation Statement.

2.0 PURPOSE OF WEBSITE

Hillingdon Manor School values the contribution that a website can make to the life and role of the school in a modern society. Hillingdon Manor School's website has 5 important roles:

- To provide information to prospective parents and teachers, the wider community and the world
- To act as a communication channel between teachers, parents, pupils and school management
- To improve pupil learning
- To raise standards in teaching and learning
- To promote the school

3.0 WEBSITE STRUCTURE

The school website is <http://www.hillingdonmanorschool.org.uk>. The site is hosted on a server in the UK and built using an open source software platform called WordPress.

There are two main sections to the site: -

- The front end published site, which is available to anyone in the world with Internet access
- The private back end site, which is available only to authorised members of the school community

Access to the private back end is controlled by username and password.

WordPress allows the Site Administrator to create an unlimited number of users that can access and add content to the site. Users are teachers, administration staff and Teaching assistants. User accounts are only created with the approval of the Head Teacher. An up to date list of current users and their roles is held by the Head Teacher.

4.0 SAFEGUARDS

The safety of children and other users who appear or are referred to on the published site is of paramount importance. The school will ensure that no pupil can be identified or contacted either via or as a result of using, the school website.

5.0 ACCESS & APPROVAL

Content on the school website is controlled by role access. There are 3 roles: contributors, editors and administrators. All material submitted to the site is initially given a status of 'Pending Review' and will not appear on the live site. Material must be promoted from 'Pending Review' to 'Published' status by an authorised person with the Editor role before it will appear on the site.

Contributors are allowed to upload photographs via the backend for approval prior to publication. Contributors are also allowed to add and edit their own news page content. Contributors are not allowed to promote 'Pending Review' content to 'Published'.

Editors are allowed to submit new pages and upload photographs via the backend for approval prior to publication. Editors are allowed to edit their own content and also contributors' content. Editors are allowed to promote 'Pending Review' content to 'Published'. Editors may also demote 'Published' content to 'Unpublished'.

Administrators have full access to the WordPress environment for the purposes of maintaining the software and the underlying technical environment. This includes tasks such as user administration and software maintenance and upgrade. Administrators will not publish materials to the site unless expressly authorised by the Head Teacher.

Those wishing to exercise this right should express their wishes in writing to the Head Teacher, clearly stating whether they object to work, images, or both being published, to the site. Parents will be notified of this right by publication of this policy on an annual basis with an acknowledgement receipt attached.

8.0 MONITORING

The editors will check material before it is uploaded or published to ensure that it is suitable and complies with the record of objections held by the Head Teacher and with copyright laws (as far as is possible). Any persons named on a web page can ask for their details to be removed.
